Children become explorers

Minimundus, Music & More

Set off on an adventure ...

For a speedy trip around the globe: Explore 150 models from over 40 countries at close-hand!

Travel around the world in just a few hours – the world’s most beautiful structures are closer than you think! MINIMUNDUS is a popular destination for the modern-day globetrotter. With models from all continents, a miniature version of the world has been recreated here in this 26,000 m² park. Nowhere else can you explore the whole world at first hand in just one day.

Set out on a voyage of discovery ...

MINIMUNDUS will take you on an adventure – a voyage of discovery in miniature unlike anything you will find elsewhere. Always wanted your photo taken in front of the Eiffel Tower? Go for it! You are sure to be impressed.

The models of some of the most beautiful buildings in the world have been constructed on a scale of 1:25 based on the original plans and using the original materials such as marble, sandstone or basalt lava. Each structure has been reproduced down to the very last detail! Take a look behind the scenes and you will be amazed at how much work goes into each individual model. This miniature world on Lake Wörthersee certainly has something unique to offer. The net profits of MINIMUNDUS all go to support the ‘RETTET DAS KIND’ charity in Carinthia which helps disadvantaged children, young people and families.

A world of discovery for children

The lively design at MINIMUNDUS fills adults and children alike with enthusiasm.

The unique exploration trail for children transforms our younger visitors into great explorers. They playfully set out to explore the history of ‘80 days around the world’ on a tour packed with puzzles which begins in one of the red London phone boxes. During the tour, they have to solve exciting questions about the world’s most important buildings. Those who find the right route will receive an explorer certificate at the end.

Kids’ play area

This history becomes a living reality for children in the 400 m² kids’ play area. Here they can choose a means of transport of their choice – a hot air balloon, elephant or boat!

A fascination you can truly feel

Steam trains chug around their route and cable railways sweep along their circuit. And when the Earth begins to shake, it’s time for the hourly launch of the space shuttle – a truly impressive experience! The numerous events on offer at MINIMUNDUS are sure to capture the enthusiasm of young and old alike.
