Around the world in a day.

Minimundus – the small world at Lake Wörthersee/Austria

In addition to 156 models of famous buildings, ships and trains from over 40 countries in the park-like area, numerous indoor and outdoor adventure and information stations are shown. Fun and games on two floors and a large restaurant with 400 seats, a cozy cafe and a large children's playground complete the unique world of experience. Minimundus is the ideal destination for a day trip, nestled between the picturesque Europapark in the immediate vicinity of Lake Wörthersee and the charming city of Klagenfurt, directly at the A2 motorway.

The world tour begins in the well-kept miniature park. Here you can experience well-known models on a scale of 1:25, made of original materials such as marble, sand or tuff. Children can embark on a mystery journey through the park, where they can playfully discover something worth knowing about selected models and be rewarded with a certificate for their zeal.

In the indoor world of experience, the world journey is continued interactively. The numerous stations, with the 4D cinema as a highlight, contain both adult themes as well as playful and excitingly prepared entertainment for children and teenagers. In July and August there is a free, imaginative children's walking tour through the park every Tuesday, and on Wednesdays in the evening the varied concert series Music around the World is offered outdoors.

The restaurant with service offers daily international dishes as well as delicacies from the Carinthian cuisine. The Cafe Passepartout, where apprentices are also trained, is located in the outdoor area near the foot and cycle path along the Lendkanal. In this way you have the possibility to enjoy your lunch or dinner, a small snack or a coffee with a unique view of the Statue of Liberty, the Eiffel Tower and the Great Wall of China.
